Nature Reserve Am alten Floßgraben
DLFF-0489

short-time-shack

Nature Reserve „Am alten Floßgraben“ is also in the village Muldenhammer and located directly on the opposite-side from DLFF-0490 along the main-road through the village.

When the feet getting colder and conditions bader, we decided for a quick jump into the nearby area on the other side of the road.

Everything was only provisoric packed on the backseat and we were checking for a fast way to do some add-on activity from DLFF-0489.

30 minutes after leaving our first location we were back on the air however conditions again dropped.

20 meter was only a very short window at all open, beside this no luck. On 40 meters it dropped out very quick after

around 15 minutes, so we moved back to CW but after unsuccessful attempt on 20, small success on 30 we were back on 40 meters CW but that kept us also only around 10 minutes busy. A last try then followed on 40meters SSB but also then here no more interest.

We spent a bit more than one hour here in the area and then decided to continue our trip in direction to Klingenthal.

The previous made contacts from this area were just 30 QSO.

So finally we could add additionally 155 contacts with 26 countries which brought the whole activity day to a successful end.

Included also 7 P2P contacts.
