DQ11WCA

Naturpark Fichtelgebirge DLFF-0058
Schloss Brand DL-03147

After long winter-break february 23 was the first day which gave me the opportunity to go out and check my rig. Selected the castle in Brand as it was not such big distance to drive. Arriving there could start with the transmissions at 1512 and G3NFV was the first one in 2021 in the log. Propagation however in total was very bad. All the other bands almost dead and 40 not in good shape. Total result this day were 120 contacts only with 113 unique stations. Had also to lea-

ve early, so just 1,5 hours of operation as darkness was very fast there and had to move down rapid. Got only 25 countries in the log. Nr. 1 Italy (22), 2. England (16), 3. France (14), 4. Ukraine (11), 5. Bulgaria (8).

Activity ended at 1649 with DL5MK as last station . 69 CW-contacts vs 51 in SSB.

Thanks for calling in and cu soon on the bands.

73, 44, 11 Manfred DF6EX
