Naturepark Steinwald DLFF-0119
Castle Fuchsmühl DL-04225

After some rainy days again a bit sun was announced. As I came out a bit later from QRL had to use a castle in very short distance. So selected Fuchsmühl as destination which is reachable in around 15 minutes from my starting point. Used the same location like the last three times on a wooden parking-array behind the castle.

My first contact was at 1438 UTC with my team-colleague Karl DL-1JKK and followed by a heavy and long pileup on 40 meters phone.

So maximum time would be two hours as darkness comes very quick after 1600. Conditions on the short distance absolutely super. 35 countries could be worked also in a super-pileup on 40 meters CW.

Made altogether 61 CW vs. 227 SSB-contacts for a grand total of 288.

Top countries this time: 1. Germany (72) 2. Italy (39) 3. Poland (27) 4. England (16) 5. France and Spain(15)

Last contact was with ON3AKW at 1643 and then it was time to jump out of the car and carry everything quick together. Very dark in the wood.
