The whole week rain, as usual when I have holidays. Started very short termed to Castle Fuchsmühl. Morning time not my favorite one, so activity started around 08UTC as the afternoon weather forecast showed maybe more rain. Only 40 and 20 meters were useful that day. In the first hour had good propagation but coming closer

to midday extreme fading on the signals and propagations were going up and down. Also always short rainfalls between some sunny periods. Finally 208 contacts were done. 65 in CW and 143 in SSB.

Most contacts with Germany (45), followed at 2. Italy (38), 3. Belgium and Poland (19), 4. France (13), 5. Croatia (12).
