Nature-Reserve Egertal DLFF-0305

Another after-work-activity brought me to the nature-reserve Egertal.

Conditions this day not so nice and also difficulties with online-connection.

Used this time again the location in the small village Hendelhammer.

This was my 3rd activity from this reference, was there the last two times in 2015 and 2016. Altogether 187

stations made it into the log out of 31 countries. If you look at the country-statistic which looks:

1. Italy 34
2. England 33
3. Germany 29
4. Poland 12
5. Belgium 9

then it is easy to detect how bad the conditions were.

Very poor into all closer surrounding countries but anyhow. Also CW didn't help, only 25 CW contacts vs. 162 SSB-QSO.

In total there are meanwhile 773 contacts from DLFF-0305 with 650 unique hunters. So hopefully some of you got a new one.
