NSG Zeitelmoos DLFF-0469

To get into Zeitelmoos is always a bit difficult. So used the period of some dry days to make an attempt after work. The main-road into the area is often so damaged and dirty by the wood-trucks. This time it looked promising and could finally find a nice place in the meadows. Car completely covered by wood but behind in the open area where the antenna was installed a nearly free offset. This was my third activity in this

area and didn't expect but my most successful.

There was only a very small passage between a stump and the threes but finally came through with the car.

Operation started at 1433 UTC with 9A1CC as first station in the log. Was active on 80, 40, 30 and 20 meters. 20 and 80 were not too efficient that day. On 30 meters had a nice short-skip-opening allowing also contacts inside germany however not too many stations realized that.

Biggest part of the activity was on 40 meters which allowed also excellent sig-

nals on shorter distances.

This time in the country-statistic Germany made the first place with 71 contacts, followed by 2. Italy (45), 3. France (27), 4. Poland (24), 5. Belgium (18).

28 countries made it into the log.

This time 76 CW-QSO vs. 213 SSB-contacts made a grand total of 289 QSO.

With my former activities from there meanwhile 752 contacts were made from DLFF-0469 with 613 unique hunters.

After exactly 2,5 hours working time station was dismantled, battery still had 50% remaining capacity.
