Was on the same location around one year ago. In the initial-activity had that time good conditions. Log contained already after 30 minutes 76 contacts and the total turnover that time were 336 QSO.

So checked again the possibility for an after-work action and right came out that day and started the trip. It was the day before the vacation-period in bavaria starts, so the fasttrack was not so overloaded. So could make the trip to DLFF-0725 in a very short time.

So found almost the same position in the huge parking-array which I used last time absolutely free. The area is used in the the later time of the day by a lot of truckers who take their overnight stop-period there.

As antenna used again the three-band windom directly beside the pond. After the first call got the reply from IU00TF and just after the first spot a lot of stations appeared and confirmed good band-conditions.

Especially PA, I and F-stations came in with sometimes 9+20db signals.

So this time the log was filled after 30 minutes with 86 contacts, Thanks to all, really a fun to get so many loud stations at the same time.

There was also continuously interest of always new stations coming in so I remained there on 7.144 as long as

possible. Later switched to 14 MHz at first SSB and later CW, before coming back to the final period again to 40 meters CW and SSB.

Total operation time was 2 hours 48 minutes. The final result this time 340 contacts with 329 distinct call-signs.

36 CW and 304 SSB-QSO with 38 different DXCC-countries.

Top 5 made this time:

1. Italy (70)
2. Germany (43)
3. Poland (35)
4. Netherlands (23)
5. Spain (20)

Thanks for calling in and cuagn soon.
