

DQ11WCA - one year activity

7568 QSO from
44 different castles
9 different WWFF-areas

Quickly after our successful activities with DR10WCA we decided to continue with similar activations.

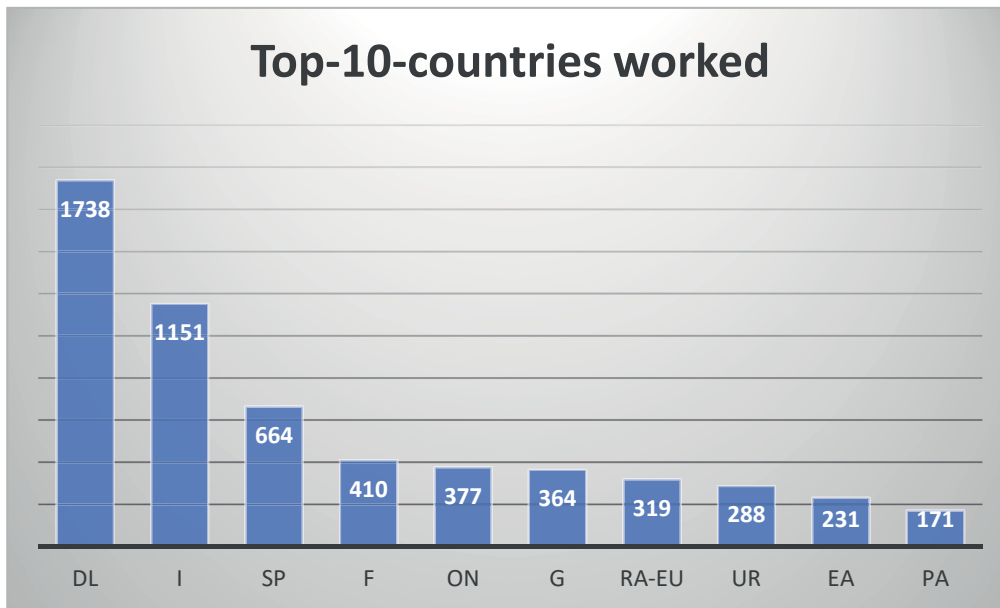

There was no chance to get anything with starting DP1.. from the licensing authority, so we tried DQ11WCA and got finally that licence from 18.04.20 till 17.04.21. Thanks also to the DARC for getting the special-DOK for our planned activities.

In this time-frame there were again almost four months were winter was so deep, that outdoor-activities not possible and additionally sometimes also restrictions to go out and everybody had other problems than ham-radio. However finally we reached the goal from the past year and could add few hundred contacts on previous result. Also the last three weeks of validity almost nothing as winter came back extremely in the area here, so activities ended at april 09,21 with 7568 contacts to 3675 unique stations.

Also conditions were often extreme bad and no chance to get the areas in shorter distance. Operators in this period were in 49 main-activities Karl DL1JKK, Konrad DH6RAE, Gerhard DL5NDH and Manfred DF6EX. Exactly 100 countries were worked with the highest scores going again to Germany, Italy and Poland on the first three places.

Top-10-countries worked

From the band-side it was much more directed on 40 meters. High bands often

DQ11WCA - one year activity

7568 QSO from
44 different castles
9 different WWFF-areas

were more or less useless. On the other hand we could improve our CW-QSO-numbers as the propagation often helped in CW-mode to continue while SSB-signals were lower.

The stations with the most contacts with DQ11WCA (callers from our own team not included) were this year EA2DT, followed by SP8LEP and IK2ECC.

Many thanks to all stations who worked us (one or several times), heard us and special thanks to those who spotted us in the cluster-network, that was much helpful.

It was a pleasure to meet you and hopefully could give you, beside a short contact also some interesting points for DLD, WWFF or COTA-awards.

This nice time is over and gave us some distance and time to think about other things like usual in the news and get in touch with our friends.

What will be next ...

At 18.04. we will start with DP44WCA (special-DOK: 44WCA)

So we hope to meet you very soon again from various WCA and WWFF-locations.

Stay healthy and take care on you.

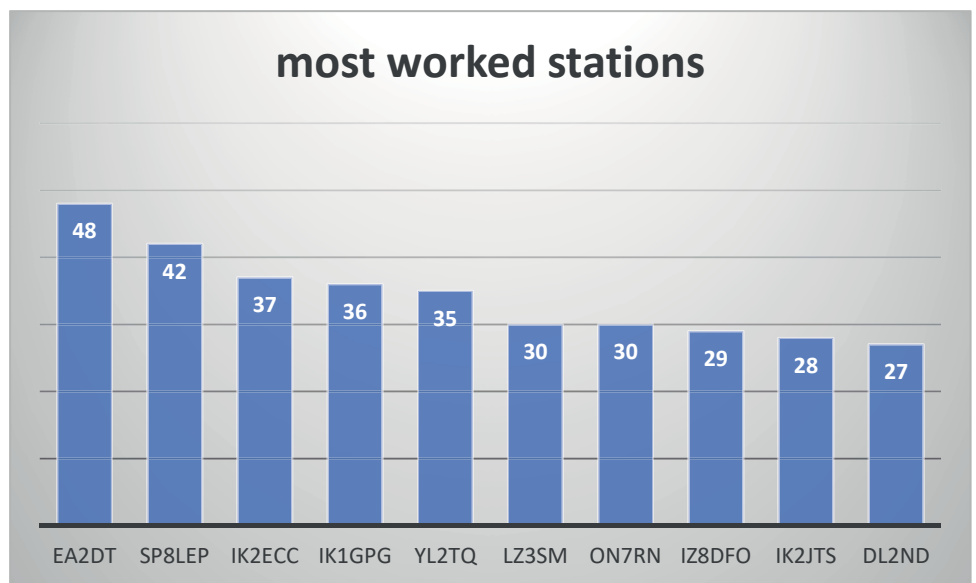

All QSO are in Clublog, DCL and LOTW coming soon.

Printed QSL is 100% or is already on the way to you.
