Naturepark Fichtelgebirge
Castle Thierstein DL-03145

On tuesday, march 01 started in the second half of the afternoon for a short trip in the nearby nature-park Fichtelgebirge DLFF-0058.

This time under the castle from Thierstein DL-03145. After antenna-setup two women with horses appeared on the other side of the road. The horses were very shy, when they saw the yellow line from the antenna-end.

The woman said, they are riding there every day and recommended me I shall talk to the horses with normal voice that they become confident with me. Finally it worked, and the horses went along the yellow lines.

So finally started in the air at 1358 UTC with PA2CVD as first station calling. After his spot appeared in the cluster, a tremendous pile-up started.

Again excellent conditions on short distance so lot of german, austrian and czech-stations could be logged.

Temperature sometimes went up till 8

degrees, so first time pretty warm in the car, as through the glass-roof a lot of warm sunshine came in. After
