Seibertsbachtal DLFF-0835

My friend in northern Germany said me, they call it shit-weather there. Yesterday was out for 2,5 hours and it was raining 2,5 hours. Needed most time to dry everything at the end of the operation.

When I was there the first time in January had temperature of 1 degree. On my second attempt yesterday it had 2,5 degrees. At the end of the operation when driving back home it started again to snow and during the night we got 5cm new snow, but anyhow, that's April. Had in my small CW shack this time a good run on 40 meters and at the end 60 CW-QSO in the log. Total result were 262 contacts with 27 DXCC-countries this time. Conditions were much better compared to the past two weeks.

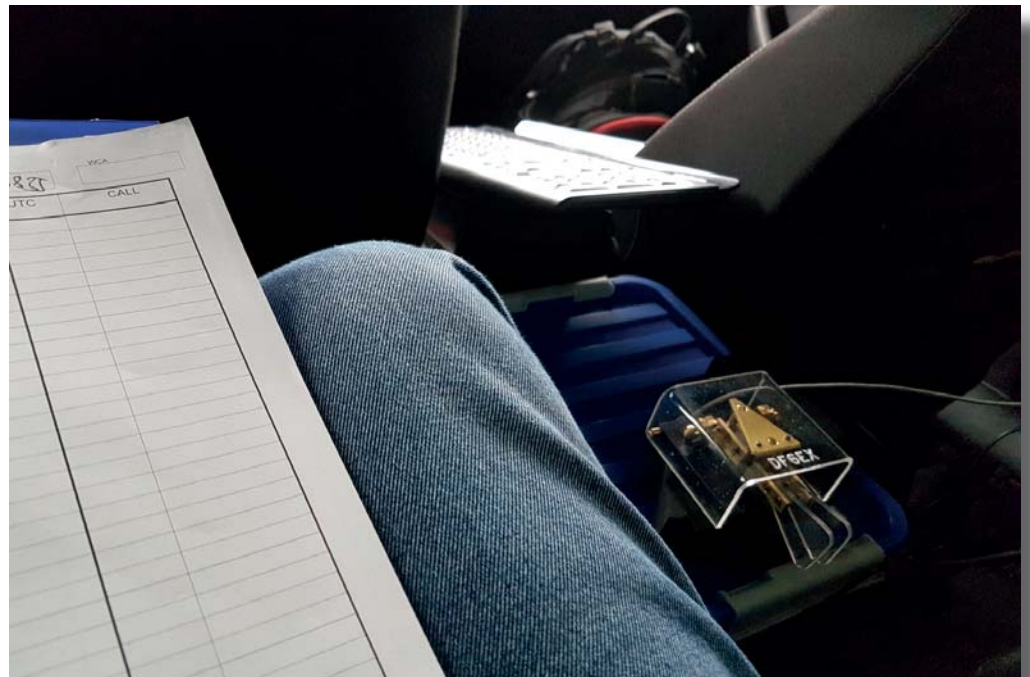

Top 5 countries this time:

1. Germany (102)
2. Poland (38)
3. Italy (21)
4. Belgium (16)
5. France (15)
